Abstract (en)

[origin: FR2765109A1] The invention concerns a composition characterised in that it comprises as active principle, at least a compound of formula (I) or its topically acceptable salts, in which: R represents the characterising chain of a fatty acid, saturated or unsaturated, linear or branched, containing 3 to 30 carbon atoms; R1 represents a characterising chain of an aminoacid and m ranges between 1 and 5, and the constituents of at least one extract and/or of at least one dye of plant raw materials rich in tannins (II). The invention is applicable in cosmetics.
