Abstract (en)

A natural body motion-driven massaging brassiere cup has a massaging fabric lining 5, and a rubber water bag 3 retained within the massaging fabric lining. The massaging fabric lining is a mix-woven having a plurality of wave-like waterproof lines 6, said wave-like waterproof lines forming a plurality of tiny raised portions 7 at an outer side of the massaging fabric lining for transmitter vibration waves from the rubber water bag to the user's breasts to massage the muscles of the user's breasts and to simulate the circulation of blood in the user's breasts. <IMAGE>
