Abstract (en)  
[origin: EP1000577A1] The present invention is directed to a container for wetted wipes, comprising a container body (11) with at least one opening, a stationary cover (12) being fitted on, or integrated to said container body, said stationary cover comprising at least one dispensing opening (23) through which the container contents is removed, a movable lid (13) which is movably attached to said stationary cover, or is an integral movable part of the stationary cover, so as to reversibly close said dispensing opening, the container being characterized in that a gas-proof means (16) is located between said stationary cover and said movable lid, for providing a gas-tight barrier between the inside and the outside of the container when the movable lid is in the closed position. Preferably, the tub also comprises a spring element (15) and a releasable lock (14) for automatic opening of the movable lid. <IMAGE>
