Abstract (en)

A package made of die-cut paper-like material, particularly for pharmaceutical products or the like, and a method for assembling and filling it. The package (1) comprises: a sheet (2) made of die-cut paper-like material which forms: a base wall, side walls (4, 6, 7) which rise from the base wall, an inner lid (8) which is superimposed on the base wall and spaced above it, and an outer lid (9) which is superimposed on the inner lid (8) and can be opened in order to allow access to the inside of the package. <IMAGE>
