Abstract (en)
[origin: EP1001097A1] The flushing water distributor for toilet or urinal comprises a housing (1) with a connection (2) for water feed and provided at both ends and on underside with water outlet apertures (4). The distributor is installed in the flushing edge of the toilet or urinal. Connected to the housing is a tank (5) holding flushing water additive and connected to the interior of the housing by at least one water entry aperture (6) and at least one outlet aperture (7).
