Abstract (en)
[origin: EP1001127A1] The threshold (10) is provided with a hollow metal profile (11) having an insulating profile (13) consisting of plastics and having a hollow chamber (12). The metal profile has a door stop wall (14) which is connected to the metal profile via catches, and the metal profile is covered on the door inside by the insulating profile. The threshold is attached to the floor by connectors (16) and the catches of the insulation profile (13) are located in the region of the connectors.
