Abstract (en)

[origin: WO9832744A1] The invention herein relates to a process for the manufacture of fluconazole, or more particularly, to the process for the manufacture of fluconazole of Formula (1) having superior antifungal activity with a high yield and purity, and its pharmaceutically acceptable salt or hydrate, wherein one-pot reaction is utilized under the mild reaction condition and short reaction time by means of using three compounds expressed by formulae (2, 3 and 4), respectively, in the presence of a base.
