Abstract (en)

The tray setting system consists of feeding items to be placed on trays to a number of workplaces (13 - 20) interconnected by conveyors, operated each by an operator for manually placing items from appropriate carriers onto the trays (for a predetermined order, all trays are charged with identical items). The carriers are brought in front of the workplaces (13 - 20) by carrier lifters (21) on the right height position for the operator. <IMAGE>
