Abstract (en)
[origin: WO9909124A1] The invention pertains to the use of a water-soluble phosphorylated cellulose which is obtained by dissolving cellulose in a phosphoric acid-containing solvent to produce a solution 94-100 wt.% which is composed of the constituents cellulose, phosphoric acid and/or its anhydrides, and water, in detergent compositions. The use concerns utilisation both in detergents for textiles and in dishwashing detergents.
