Abstract (en)
[origin: DE19736453A1] The machine offers the users only one compartment (24) in which he places money to be deposited, or from which he takes dispensed money. Below the base of the compartment is a separator (36) for individually withdrawing the notes placed on the base. Above the base of the compartment, an intermediate base (56) moves between a first position corresponding to a closed compartment flap and a second position in which it extends into the compartment.
