Abstract (en)
[origin: EP1004728A2] Anti-panic lock comprises two-part lock pin (10) and divided lock nut (1), with a platelet (18). One part of the (10) has an axial thread bore (12). A threaded pin (7) passes through second lock pin section (9) at its end region. A shoulder type bore section (13) has a plastic brake (15) inserted in it, and the free side extends over the free side of the lock pin and rests against the pin head.
