Abstract (en)
[origin: EP1004739A2] The insulating connection consists of an insulating strip fitting positively to the aluminum strips. In cross section, the insulating strip (20) has a middle sector with a bulge and webs (21) on both side connecting with the strip halves (11, 16). There are nose sectors on both sides of the bulge extending these webs, on which reinforcing strips (25) are fitted.
