Abstract (en)

[origin: EP1005809A1] The table comprises an overhanging tray (2) and a base (3) mounted on castors (4) which supports the tray by a single vertical cylindrical beam (1). This beam has an outer tubular casing integral with the base inside of which is fitted a spindle integral with the tray. A stabilizer (13) supported on the ground by castors (15) is rigidly fixed to the lower end of the spindle which is extended under the base.
