Abstract (en)  
[origin: EP1006244A2] Particularly for sanitary components through which water flows, the fixture arrangement comprises an under-plaster box (1) connectable to a wall of a building and having at least one open side (2). A fitting basic body (7) is insertable into the box from its open side and at least one connecting component (9) is connectable to the box and the fitting basic body. The fixture arrangement is made of sound-insulating material. The fitting basic body does not touch the box at any point.
