Abstract (en)
A folding trestle includes first and second leg structures (10 and 11). Struts in the form of welded metal strips (23) extend from one (11) of the leg structures and are pivotally connected to the other leg structure (10). Flat surfaces (19) are provided at the upper ends of the leg structures (10 and 11) and are in abutting co-planar relationship in the in use condition of the trestle. <IMAGE>
