Abstract (en)

[origin: EP1008971A2] The theft prevention hanging device has an elongate fixing (1016) attached to a room wall and provided with at least 2 current paths (1018,1020), cooperating with at least one contact element (1024) of a hanging hook (1022A) for each hanging object, which can slide along the elongate fixing, for providing a closed monitoring circuit. Also included are Independent claims for the following: (a) a monitoring device for a hanging object; (b) a monitoring system for a hanging object
