Abstract (en)

[origin: DE19739702C1] A low voltage circuit-breaker, including a contact arrangement (19), a drive device (20) for actuating the contact arrangement, as well as including a switch-shaft (2) for transmitting a driving force from the drive device (20) to the contact arrangement (19), and to a bearing arrangement receiving the switch-shaft (2). The bearing arrangement for the switch-shaft has as least one bearing body (1) connected to a pole-module receiving the contact arrangement (19). The bearing arrangement has specifically at least three bearing bodies tightly and force-transmissively joined to one wall (3) of the pole-module (4).
