Abstract (en)

[origin: WO9912654A2] There is disclosed a masking foam tape adapted for use in spraying automobile doors and like openings to prevent penetration of spray through the unsealed gap between door and door surround, having an elongate substantially rectangular section having major dimension at least twice but not more than four times its minor dimension and having at one end of its elongate section adhesive for attachment at the opening and being tapered and free of adhesive at the other end thereof.
