Abstract (en)
[origin: WO9913533A1] The invention relates to a plug-in contact (10) configured as a single-piece and made from a metal strip, comprising a pin-shaped contact part (12) and a connecting part (16) for connecting an electric line (18). A guide part (14) is arranged between the contact part (12) and the connecting part (16). The guide part (14) is configured in the shape of a box with a triangular cross-section and a flat side of said guide part (14) is arranged at a distance parallel to the original level of the metal strip.
