Abstract (en)  
This invention concerns a dry-cleaning kit including a dry-cleaning product comprising an absorbent substrate impregnated with a liquid cleaning composition comprising: (a) from 60% to 90% by weight of water; and (b) from 10% to 40% by weight of a surfactant; and optionally (c) one or more conventional additives, with the proviso that when such additive includes a gelling agent it is present at a concentration of less than 0.25% by weight.
