Abstract (en)  
[origin: WO9909946A1] A rinse-off liquid personal cleansing composition comprising water, from about 1 % to about 60 % by weight of a water-soluble surfactant, and a hydrophobically modified silicone selected from silicones having formula (I) wherein R is C1-C4 alkyl or phenyl, R' is C1-C20 alkyl or phenyl, z is 5 to 21, and x has a number average value in the range of from about 20 to 400, y has a number average value in the range of from about 0 to about 10 and x + y lies in the range of 30 to 400. The personal cleansing compositions of the invention provide excellent rinse feel and skin mildness.
