Abstract (en)
[origin: DE19741449A1] The fixture flange (2), support flange (3) and filter flange (16) are integral component parts of the support console. An oil filter housing accommodating a filter insert (10) is formed by the support console. The filter flange is pot-shaped with an aperture (14) to accommodate the filter insert integrally within the support console.- DETAILED DESCRIPTION - A cooler flange (26) for connection of an oil cooler is formed as a further integral component part of the support console. The support console is formed with channels connected to a cooling circuit of the engine and, corresponding with the oil cooler, issues in the cooler flange
