Abstract (en)

[origin: EP1016361A2] The system has a horizontal, rectangular palette frame (1) for a pallet, which can be inserted into it and removed from it and an information area carrier (3) mounted on the rear (4) of the pallet frame and extending upwards from the frame. The frame has an upright front wall and side walls between the front wall and rear wall. The height of the information surface carrier may be increased or decreased.
