Abstract (en)

[origin: EP1016818A2] The plug connection facility (7) of electric conducting material is held radially outside the insertable section of the lamp (2). Each facility (7) is connected conducting with one of the plug sockets (3) and which are insertable in the plug connection parts (8), which are fixed at the reflector or housing of the headlamp to be equipped with the lamp holder (1) and are connectable with connecting cables. The plug sockets (3) are held floating at the lamp holder (1). The plug connection facilities (7) are held rigidly at the lamp holder (1) and the plug connection parts (8) are fixed at the reflector or the housing of the headlamp in a floating condition.
