Abstract (en)  
[origin: WO9813813A1] A display device for use on a moving vehicle, said display device comprising: (i) a flexible, inflatable tube with a mouth and a tail end, said tube being adapted such that air currents can flow through the tube and in doing so cause the tube to inflate; (ii) a reinforced collar region around the mouth of the tube; (iii) a first attachment means being an integral part of or adapted to attach to a vehicle; (iv) a second attachment means adapted to attach the collar region of the tube to the first attachment means on the motor vehicle; and wherein the sides of the tube are adapted to display advertising or other display material.
