Abstract (en)

[origin: FR2769191A1] The foot (18) of a seat (16) is a one piece structure (20) that is made in composite material. It is fixed to the seat by front and back anchoring zones (26,28) and is fixed to the floor by front and back anchoring zones (22,24). It has a central hole (40) in which a metallic ring, made of a light alloy, is inserted to absorb energy.
