Abstract (en)
[origin: EP1020141A1] The bed is formed from three panels (2,3,4) that are articulated such that they can be folded to form a seat. The arm rest for the chair is formed from an L shaped bracket (14) that protrudes through a cut out in the center panel and is attached to the third panel. When the bed is deployed, the bracket forms the rear support legs of the bed.
