Abstract (en)

[origin: EP1020266A2] The arrangement has a roller device (1) for producing a dividable material strip (9) in the blank part, has a device contg. at least one application roller (4-16) for applying decorative and/or glazing material to the material strip. A pattern can be transferred from the application roller to the material strip. An Independent claim is also included for a method of manufacturing ceramic blank parts, esp. tiles.
