Abstract (en)

[origin: EP1020579A2] The sealing profile (10) at the rabbet of a facade or skylight is fitted on an adapter profile (1) at the support structure, with drainage grooves to lead off rain water. The sealing profile (10) grips with a center cover (11) in the screw channel (4) of an adapter profile (1). Two parallel support bars (20) extend from the sealing profile where it grips round the screw channel (4), extending over the level of the rabbet zone, at a gap matching the dia. of the mounting screws (5).
