Abstract (en)
[origin: EP1020959A2] The system has a housing (1) for attachment to a bearer with a number of holders (2) and associated module inserts (3) for accommodating plug contacts, latching arrangements (7,9) for latching the module inserts in the holders with at least one sprung latching hook (7) and at least one associated latching surface (9) and a cover (17) for the plug contacts. The cover has stop surfaces (18) that engage behind the latching hooks with the module inserts latched in and block them against bending up.
