Abstract (en)
[origin: WO0009365A1] An air bag storage portion (22a) of a cover member (25) that covers a seat back (22) includes a seat-back front cover element (25a) and a side cover element (25b) that are sewn together. An air bag module (30) is provided with a casing (31) that contains an air bag (32) and an inflator (33) therein. The casing (31) includes a tubular guide portion (34) that has two opposite side walls (31a, 31b), a top wall (31c), and a bottom wall (31d). The front end of the guide portion (34) is formed having a front opening (40) that is directed toward a sewing portion (26) between the seat-back front cover element (25a) and the side cover element (25b).
