Abstract (en)
[origin: WO9919579A1] A plain roof tile has an upper surface (21) of which a lower surface area is visible when the tile is laid with other such tiles to form a roof, an under surface (28), and being shaped during manufacture to enable the visible surface area, when a plurality of such tiles are stacked one on top of another to form a stack, to be spaced from, and remain out of contact with, an oppositely facing under surface (28) area of the immediate overlying tile of the stack.
