Abstract (en)
[origin: DE19745460A1] The wiper blade has a rubber wiper (1) supported by a wiper blade frame (2) having a number of pivot hoops (5-7), arranged in a hierarchy structure, secured to a driven wiper arm. A guide element (15) is provided by a cladding (10) for the higher hierarchy pivot hoops (5,6) of the wiper blade frame, for preventing the sideways displacement of the lower hierarchy pivot hoops (6,7).
