Abstract (en)

[origin: WO0010858A1] The invention relates to a railway vehicle (1) having a driver's seat (3) arranged inside a driver's compartment (2) which is separated from a passenger compartment (6) by means of a separating wall (8) comprising an integrated door (9). To avoid disturbing light reflections the frame elements (10, 11) of the door (9), as well as possibly other components on the flat parts (19) of the door facing the display device (4), are provided with a matt chrome-plating.
