Abstract (en)  
[origin: DE19902962C1] Container (1) has two separate compartments (4, 5) made of a gas permeable plastic (6). One also has a gas impermeable plastic layer (8). An Independent claim is also included for making the container by extrusion blowing. The further layer (8) is added later, to cover one of the compartments completely. Preferred Features: The other compartment is at least part covered with a gas impermeable plastic. Between this and the permeable plastic, an inert, intermediate layer of bonding agent (7) is optionally added.
