Abstract (en)
[origin: EP1028204A2] The anchoring section (30) holds the first end of the clip (20) to the tiling batten (2). The central region (24) grips (28) towards the fastening section. This holds the upper edge of the first tile (4) down onto the batten. The end of the clip is turned back, to hold down the lower edge of the second tile (6) over the first.
