Abstract (en)

[origin: EP1028356A2] The arrangement has an inlet opening (26) and an outlet opening (24) for the strip material (28,30) and an application device between the openings. The openings are arranged between at least two moistening arms (16,18) and are connected together via a groove (32) running between the openings and open at the edge. An Independent claim is also included for an application of the arrangement to a digital printer in connection with a fixer.
