Abstract (en)  
[origin: DE19750769A1] The invention relates to a sprayable covering for asbestos cement surfaces, containing binding agents and filling materials in a liquid, solvent, dispersion or powder form. The inventive covering provides a means for coating and incorporating free fibres, fungi, algae, lichen and moss on asbestos cement surfaces in compliance with the legal requirements of TRGS 519, whereby uncoated asbestos products can be coated but cannot be cleaned.
