Abstract (en)

[origin: WO9923277A1] The invention relates to a product (1) which is designed to be subjected to the effects of hot gas. Said product has a coating (3) into which chromium nitride (6) has been incorporated in the form of a diffusion barrier to improve the long-term resistance of the coating (3). The invention also relates to a method for producing a coating (3) for a product (1) designed to be subjected to the effects of hot gas.
