Abstract (en)
[origin: FR2782672A1] The box, comprising an open-topped base (1) and a hinged lid (2), has holders (10a, 10b) inside the lid for a calculator (9), positioning it opposite windows in the lid so that its display screen/solar power panel and key pad are accessible when the lid is closed. The holders can be of an elastic material to press the calculator against the lid surface, and the windows are of smaller dimensions than the calculator. Clips (14) on the inside of the lid can be used to hold pens and pencils, and recessed upper edges (1c) on the base sides serve to support suspended file hooks.
