Abstract (en)

[origin: EP1029785A2] The method of packing a product comprises filling a package with product in a predetermined arrangement, whereby the distance between at least two facing walls (136, 138, 140, 142) is a predetermined amount bigger than the size of the product in the same direction and then centering the product. Independent claims are included for: (a) a device for producing a package with a centering arrangement and (b) a package.
