Abstract (en)  
[origin: GB2330594A] A construction fitting 40, for use as a reinforcing member or anchoring member, comprising an elongate core 41 having a raised load bearing formation 42 entirely deposited on the core, or bonded to the core, by welding. The deposited or bonded material maybe shaped into a desired profile subsequent to its depostion on or bonding to the core, and may take the form of a continuous screw thread or plurality of ribs.
