Abstract (en)
[origin: EP1032005A2] The electrical installation (1) has at least one electronic control (2) coupled to an installation module (3), with at least one switching device (5) and a fuse (6) inserted in the electrical connection lines (4) between the electronic control and the installation module. The fuse is provided by a plug-in device (9) releasably fitted to a socket (10) for providing the electrical connection between 2 sets of terminals (7,8), coupled to the electronic control and the installation module.
