Abstract (en)
[origin: WO9925303A1] A multifunctional operating table comprises a column (2) with a ground support platform (2'), a plane member (3) apt to support the patient to be operated and means for removable connection between the column (2) and the plane member (3), in which the column defines a symmetrical longitudinal plane (K). The removable connection means is comprised of mechanical coupling means (29, 30, 33, 34), of the kind having corresponding complementarily shaped profiles tapered towards the top, electronic means (37, 38, 39, 40) for transmitting information and electrical means for transmitting power.
