Abstract (en)
[origin: EP1033207A2] The holder clip (40) has a clip hoop (42) projecting from a flat housing body, together with guide elements locating in corresponding recesses in the housing (14) of the electric hand tool (10), for positioning the lip hoop relative to the latter. The hand tool housing receives at least one screw for securing the clip hoop. The flat housing body may be made of plastics with the clip hoop made of metal.
