Abstract (en)  
[origin: DE19747668A1] The invention relates to a stackable container, especially for storing and transporting food rations for flight passengers, comprising a base shell (3) and a cover (5) which can be placed on the base shell and removed therefrom (3). The invention also includes joints and fasteners (13, 15) which can be used to fasten the base shell (3) to the cover (5) of an identical container located thereunder. The invention further relates to a method for using the stackable container.
