Abstract (en)

[origin: EP1034926A1] The doctor blade consists of several segments (2) mounted side by side on a support bar (5) set on the ink box. The segments are connected to the support bar by connectors (8) and a positive-locking connection is provided underneath the connectors in the contact area (9) of the contact faces of the segments and support bar (5). The contact faces can be roughened or have interengaging linear protrusions
