Abstract (en)
[origin: EP1035031A2] The base (10) of the holder is generally rectangular. It has a generally U-shaped slit or cutout (18) extending inward from one of the short sides. There are elongated projections (20,22) in different planes, extending inward from the sides of the groove to hold the drilling tool. The holder consists of a plate with a thick rim and a thinner portion (24) inside the rim. Thin holder plates (12) are fastened on either side of the base, and may have an aperture (30) for hanging up the packaging assembly.
