Abstract (en)  
[origin: EP1035260A2] The profile rail has at least two legs arranged at angles to each other, at least one of which has fixture devices. The profile rail (11-11") is elastic at least in areas and with elastic expansion in its transversal direction can be fitted on at least one part (6,8) of the installation frame. The walls of the two legs of the profile rail are produced particularly from spring steel. An Independent claim is also included for an installation assembly using the profile rail.
