Abstract (en)

[origin: EP1035289A2] The surface of the rod-like element (22) of the hinge component (20) is in contact with the hook-like element (12) of the hinge component (10), when in its assembled state. It is made in part of polyamide. The outer diameter of the base element (24) is the same or smaller than the inner diameter of the hook element.
